# Icon Index

	<p>Happy Floors is committed to providing products that are both sustainable and beautiful. We are a proud member of the U.S. Green Building Council, the leading program for green buildings and communities worldwide.</p>	<p>V4</p>	<p>Random variation or V4 is the final measure on the shade variation scale and notes that color differences from tile to tile are unpredictable. That means one tile may have totally different colors from the other, resulting in an eclectic final installation.</p>
	<p>We provide our customers as many products as possible that are sympathetic to the planet. Our Eco-Friendly products are produced with an average recycled content of 30%.</p>		<p>Water resistant mosaics are suitable for the damp environments. That makes these mosaics with this marker ideal for such rooms as bathrooms, kitchens, and pool houses.</p>
	<p>We are dedicated to using recycled content in as many of our products as we can, without sacrificing beauty or innovation. This symbol lets our customers know just how much of a collection contains recycled material.</p>		<p>Fire-retardant mosaics are hardwearing making them suitable for active environments that require hardwearing materials. Mosaics with this indicator can stand up to the heat of flames with limited damage.</p>
	<p>Italian design is known worldwide to be of high quality and to be visually appealing. That's why it's the cornerstone of the Happy Floors catalog of products. Majority of the collections we offer are made and designed in Italy. We're proud to bring Italian design to our customers.</p>		<p>Mosaics noted with this icon are appropriate for pool installation, making them ideal for adding statement borders and features to them.</p>
	<p>Happy Floors collections designed and manufactured in Spain are filled with the country's romance and charm. That's why we're proud to offer Spanish tiles to our customers.</p>		<p>Happy Floors mosaics noted with this icon are not appropriate for use in pool installations.</p>
	<p>Portugal is notable for being both one of the oldest European countries as well as one of its fastest innovators. This combination leads to collections that are both storied and inventive, the ideal package for Happy Floors products.</p>		<p>Mosaics noted with this icon are appropriate and ideal for floor installations.</p>
<p>V1</p>	<p>Shade variation notes the differences in how light or dark a product will be within the same production run.</p> <p>Uniform appearance or V1 means the differences in shade from the same production run are minimal.</p>		<p>Mosaics noted with this icon are appropriate for outdoor installations.</p>
<p>V2</p>	<p>Slight variation or V2 means there is a distinguishable difference in pattern and/or texture, but with similar colors.</p>		<p>Mosaics noted with this icon are appropriate for shower installations.</p>
<p>V3</p>	<p>Moderate variation or V3 means that while the colors on a single piece of tile will indicate what can be expected on other tiles, the amount of color on each piece may vary significantly. For example, "a little sliver of white" on one piece of tile may take center stage on the next piece.</p>		

# New Collection

The year 2021 is all about prioritizing our homes. Making changes to ensure that our spaces are as formally functional and beautifully designed as possible has been the collective, primary goal. This renovation renaissance gave us here at Happy Floors the courage to be bold and inventive in the designs we offer and aggressive

in improving some of our most sought-after products.

The 2021 home requires all the luxury of a high-end resort. That means a focus on exotic and exciting collections. This led to an addition to one of our most popular new releases of 2020; Crash, and to introducing a stunningly beautiful onyx-look called Athena. An additional fifty offerings in our line of Project Deco mosaics rounds out our new collections for this exciting year where home renovation reigns supreme.

# Concrete

Concrete-look tile is a contemporary décor lover's dream. Known for its subtly textured surfaces, this category's strength and beauty are in its simplicity. From flat, freshly poured concrete to patterns that mirror a more rustic concrete look, the different collections have a quiet range of variety that softly set the tone throughout the spaces they are installed in. From subdued and sophisticated to expansive and bold, concrete-look tile from Happy Floors has something for everyone.

# Azuma

The Azuma collection from Happy Floors takes its name from the highly-touted Japanese architect Takamitsu Azuma whose career was highlighted by a love for concrete. The wide range of sizes that this series is available in is almost too good to be true.

Above: 36" x 36" Azuma AM Natural

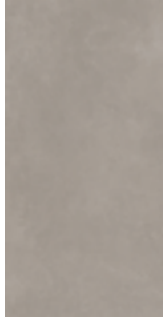

Above: 36" x 36" Azuma DG Natural

## Azuma

Subtle in its approach, the Azuma collection is a soft take on a concrete-look porcelain tile. Quiet shifts in tone can be seen throughout each tile, creating designs that are industrial but less cold than other concrete looks. This discretely impressive collection is a nod to the simplicity of Japanese aesthetics.

# Etna

Inspired by the majestic Sicilian mountain of the same name, Etna is a concrete-look porcelain tile collection that strikes a bold, new contemporary look. This exquisitely modern tile brings an air of sophistication to any room with its softly textured patterning. Etna's subtlety and four neutral tones make it a timelessly beautiful collection. Bring a sense of power and sophistication to any room with this wonderfully contemporary tile.

# STATUARIO & STATUARIO LUXE

Whispering back to the marbles of ancient times, the Statuario collection captures the organic beauty of the classical age. Without all the bells and whistles of modern technology, Statuario is true to its replica of one of the most intricate marbles available in nature.

Above: 12" x 24" Glossy  
Large Hexagon Mosaic Glossy

## Statuario

Based on the beloved marbles of ancient times, the Statuario collection is a porcelain tile that captures the refined beauty of history. A stunning combination of white and gray, this collection is known for the artful veining that flows throughout, which has just enough contrast to allow the eye to dance around the tile.

## Sublime

Sublime is an artful representation of all that is beautiful about marble-look tile. Both an accurate depiction and an affordable option of this high-end look. Sublime's veining is pronounced just enough, giving rooms a hushed essence of prestige. The realistic approach to this collection's veining keeps harsh lines at bay while having just enough contrast to provide Sublime with a whisper of authority.

# Stone

Stone-look tile finds its roots in one of the building blocks of human life. From the earliest cave paintings to one of the seven wonders of the world, stone has always been front and center in human fascination. With nearly 200 different types of stone, this look offers one of the widest range of designs within its own category. It dominates the Happy Floors collection types for this reason, with no two collections being the same. Each line is as unique as the natural stone from which it is designed.

# FOSSIL

Imaginative hints of concrete, petrified wood, and a painterly touch create a bold expression – Happy Floors' Fossil collection. Like the bold brushstrokes on an Artist's canvas, Fossil breathes creativity into the home, setting an inspired mood in any room. Adding to the depth of its design are concrete-derived undertones that give it just the right contemporary touch. A fusion of organic and modern, Fossil is the ideal stone-look tile for a softened industrial aesthetic.

## Glacier

The flagship Glacier collection is a dazzling white tile made of four textures. Solid is a flat tile, ideal for lovers of minimalism. Nude is an undulating wave pattern whose curves add an element of softness to the tile's hard surface. Mojave is a texture filled with a surprising and angular cracked pattern. The collection is rounded off by the wave texture which has a natural, organic direction to its tightly undulating patterning.

## Glacier 2.0 - Coming Soon

Add dimension to your space with Glacier 2.0 from Happy Floors. These ceramic tiles are the perfect solution to refresh and lighten up any space. The already impressive Glacier line has expanded to include three new bold patterns: eiden (the increasingly popular hexagon shape), leaves (an elegant design that depicts abstracted leaves swaying in the wind), and twin (an on trend, right on time chevron pattern). Think outside the box and be bold with Glacier 2.0

Tortuga Collection

TURQUOISE  
PICKET MOSAIC

The Project Deco Tortuga collection is an eccentric fashion forward collection of mosaics. The cast glass of the mosaics glisten, softly accentuating the different tones within the mosaics.

## ***Make it happen.*** ---

The ease of caring for and maintaining the look of porcelain and ceramic tile is one of its most rewarding selling points. This hardwearing product group, when properly looked after, ages beautifully. Carefully read the technical information associated with the collection you have purchased before cleaning. This can be found at [www.happyfloors.com](http://www.happyfloors.com) and in each collection's brochure.

The year 2021 has brought continued innovation in style and design to the Happy Floors family of porcelain and ceramic products. We cannot thank our employees, affiliated showrooms, and consumers enough for their continued support of the Happy Floors goal to design happy, build happy, and be happy.

Design Happy ▪ Build Happy ▪ Be Happy
