Happy Floors is committed to providing products that are both sustainable and beautiful. We are a proud member of the U.S. Green Building Council, the leading program for green buildings and communities worldwide.

We provide our customers as many products as possible that are sympathetic to the planet. Our Eco-Friendly products are produced with an average recycled content of 30%.

We are dedicated to using recycled content in as many of our products as we can, without sacrificing beauty or innovation. This symbol lets our customers know just how much of a collection contains recycled material.

Water resistant mosaics are suitable for the damp environments. That makes these mosaics with this marker ideal for such rooms as bathrooms, kitchens, and pool houses.

Italian design is known worldwide to be of high quality and to be visually appealing. That's why it's the cornerstone of the Happy Floors catalog of products. Majority of the collections we offer are made and designed in Italy. We're proud to bring Italian design to our customers.

Fire-retardant mosaics are hardwearing making them suitable for active environments that require hardwearing materials. Mosaics with this indicator can stand up to the heat of flames with limited damage.

Happy Floors collections designed and manufactured in Spain are filled with the country's romance and charm. That's why we're proud to offer Spanish tiles to our customers.

Mosaics noted with this icon are appropriate for pool installation, making them ideal for adding statement borders and features to them.

Portugal is notable for being both one of the oldest European countries as well as one of its fastest innovators. This combination leads to collections that are both storied and inventive, the ideal package for Happy Floors products.

Happy Floors mosaics noted with this icon are not appropriate for use in pool installations.

## V1

Shade variation notes the differences in how light or dark a product will be within the same production run.

Uniform appearance or V1 means the differences in shade from the same production run are minimal.

Mosaics noted with this icon are appropriate and ideal for floor installations.

## V2

Slight variation or V2 means there is a distinguishable difference in pattern and/or texture, but with similar colors.

Mosaics noted with this icon are not appropriate for outdoor installations.

## V3

Moderate variation or V3 means that while the colors on a single piece of tile will indicate what can be expected on other tiles, the amount of color on each piece may vary significantly. For example, "a little sliver of white" on one piece of tile may take center stage on the next piece.

Mosaics noted with this icon are appropriate for outdoor installations.

## V4

Random variation or V4 is the final measure on the shade variation scale and notes that color differences from tile to tile are unpredictable. That means one tile may have totally different colors from the other, resulting in an eclectic final installation.

Mosaics noted with this icon are appropriate for shower installations.

**New Collections** 2023 is all about prioritizing our homes. Making changes to ensure that our spaces are as formally functional and beautifully designed as possible has been the collective, primary goal. This renovation renaissance gave us here at Happy Floors the courage to be bold and inventive in the designs we offer and aggressive in improving some of our most sought-after products.

# Concrete

Concrete look tile is a contemporary décor lover's dream. Known for its subtly textured surfaces, this category's strength and beauty are in its simplicity. From flat, freshly poured concrete to patterns that mirror a more rustic concrete look, the different collections have a quiet range of variety that softly set the tone throughout the spaces they are installed in. From subdued and sophisticated to expansive and bold, concrete-look tile from Happy Floors has something for everyone.

## Azuma

Subtle in its approach, the Azuma collection is a soft take on a concrete look porcelain tile. Quiet shifts in tone can be seen throughout each tile, creating designs that are industrial but less cold than other concrete looks. This discretely impressive collection is a nod to the simplicity of Japanese aesthetics.

## Iron

This collection pays homage to iron, a mineral that has been at the forefront of society's intellectual renaissance throughout the ages. Iron objects hand molded by craftsmen dating back as far as 3500 BC have been discovered. The Iron collection's authentic natural finish, offered in traditional tile sizes, is ideal for a contemporary aesthetic that hints at a historical past.

# Marble

Marble look tile is the height of luxury for porcelain tile collections. Marble is one of the most sought-after natural stones due to its nod to antiquity and its wide range of visually striking looks. Marble look tile is a rare mixture of both traditional and bold. This high end look will always be as commanding as the day it was first installed. Its variety of veining can range from effervescent to languid, providing endless design possibilities for enthusiasts of this highly desirable look.

## Sublime

Sublime is an artful representation of all that is beautiful about marble look tile. Both an accurate depiction and an affordable option of this high end look.

Sublime's veining is pronounced just enough, giving rooms a hushed essence of prestige. The realistic approach to this collection's veining keeps harsh lines at bay while having just enough contrast to provide Sublime with a whisper of authority.

# Stone

Stone look tile finds its roots in one of the building blocks of human life. From the earliest cave paintings to one of the seven wonders of the world, stone has always been front and center in human fascination. With nearly 200 different types of stone, this look offers one of the widest range of designs within its own category. It dominates the Happy Floors collection types for this reason, with no two collections being the same. Each line is as unique as the natural stone from which it is designed.

## Flint

A refined stone look, Flint offers a solid take on stone-look tile. Available in 12" x 24" and 24" x 24", Flint comes in four neutral colors. Two Cool: White and Silver; along with two Warm: Ivory and Natural. The mosaic offering for this line takes these two pairings, combining their colors, to create a visually interesting 2" x 2" Mosaic. The inspiration taken from real stone results in a strong line of uniquely beautiful tiles.

Mara is a weathered stone look that encapsulates the varied textures of a rugged landscape all in one place. This collection features windswept bands and speckles of lightly toned mineral deposits throughout its composition. Closer inspection reveals scratchy visuals which adds a resolute quality to its design.

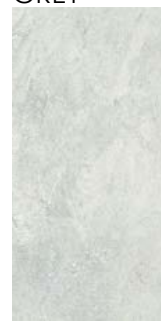

Mara captures the beauty of heavily traveled terrain and refines it for indoor enjoyment.

## X-Rock

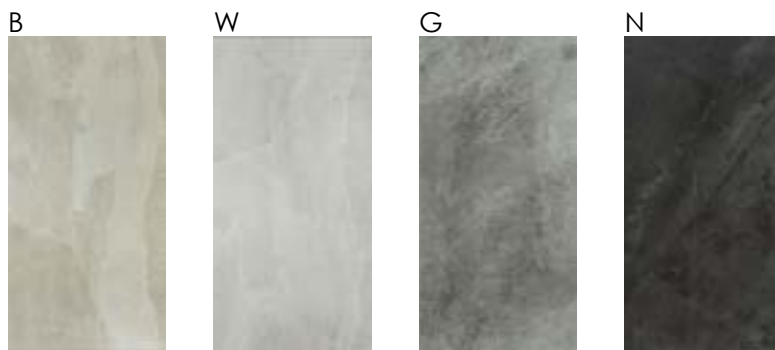

Picking up on elements of natural stone, concrete, and contemporary textures, X-Rock manages to present a fusion of natural and modern sophistication. Specifically, the textures applied to this tile line up with a contemporary concrete, while the veins moving through X-Rock are reminiscent of natural stone.

## Glaciar

The flagship Glaciar collection is a dazzling white tile made of four textures. Solid is a flat tile, ideal for lovers of minimalism. Nude is an undulating wave pattern whose curves add an element of softness to the tile's hard surface. Mojave is a texture filled with a surprising and angular cracked pattern. The collection is rounded off by the Wave texture which has a natural, organic direction to its tightly undulating patterning.

## Glaciar 2.0

Add dimension to your space with Glaciar 2.0 from Happy Floors. These ceramic tiles are the perfect solution to refresh and lighten up any space. The already impressive Glaciar line has expanded to include three new bold patterns: Eden (the increasingly popular hexagon shape), Leaves (an elegant design that depicts abstracted leaves swaying in the wind), and Twin (an on trend, right on time chevron pattern). Think outside the box and be bold with Glaciar 2.0

The Vertex collection is a dazzling array of high gloss solid-look tiles that are available in black and white. Its two experimental textures: line and curve are 6" x 6" tiles that come together to make a variety of different patterns. The line texture is an undulating array of 3D angular lines while the curve texture forms the indentation of a quarter of a circle. Whether exciting and linear or soft and curved the Vertex collection is an exciting and experimental offering of wall tile.

## Canela

The time worn beauty of Canela, as its name implies, plays with the color of cinnamon. The palette of rich brown and sun-bleached natural planks provide this collection with two aged colors. Evoking history, romance, and tradition. The rustic charm of Canela perfectly marries old looks with new design. With inspiration taken from the planks found in old, abandoned, European spice mills, Canela can find purchase in the likes of a log cabin, or the sleek modernism of a high-rise.

## Azuma

Taking its name from the highly touted Japanese architect Takamitsu Azuma, the Azuma collection of 2CM pavers is subtle in its approach. A soft take on a concrete look porcelain tile, this line has quiet shifts in its tone that can be seen throughout each piece of tile. This discretely impressive collection is a nod to the simplicity of Japanese aesthetics.

## Maryland

A creation inspired by our own ceramic tile concretes, rising from the vibrations of the Mid-Atlantic urban tradition, Maryland exemplifies contemporary design. A concrete look with an array of color, touching on the natural coastal sands and warm greys of the urban landscape. These intentionally understated shades propel the philosophy of minimalism to the forefront of Maryland's design. This marked collection demonstrates a modern sophistication in any space.
